Options

Outdoor Ready Finish Available

- A finish option is available that allows Custom Iron Drapery Hardware to be installed under your covered deck, cabana, or screened areas.
- Option requires 25% surcharge and includes a 5 year warranty.
- Hardware must be installed under an eave or overhang that prevents direct exposure to the elements.
- Not available with Next Generation or Contemporary Collections.

By-Pass Brackets and By-Pass Rings

- All center support brackets included with the pole sets are low profile brackets which allow the C-Rings to smoothly slide past the bracket for larger treatments. These brackets also feature a 1" high horizontal mounting base for installations with limited wall space.
- The By-Pass Rings are designed to be used with the By-Pass Center Support Brackets for large one-way draw treatments requiring a center support.
- Unique magnetic brackets require no set screws.

Hinged Elbow Connectors

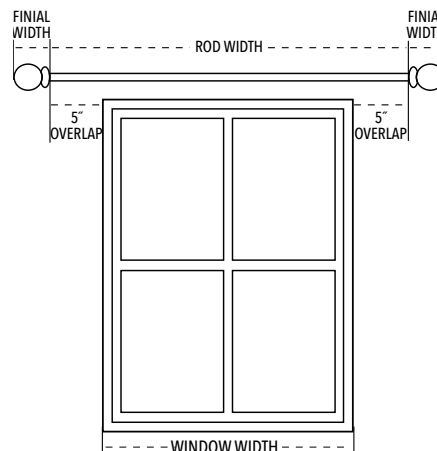

- Angles for Bay and Corner windows are achieved by using Hinged Elbow Connectors

Measuring Instructions

DETERMINE HARDWARE WIDTH

- Rod width does not include the length of the finials.
- 5" overlap on each side of the window is recommended.

MEASURING FOR BAY WINDOWS:

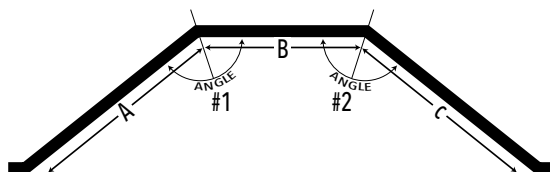

Bay windows are defined as having 3 or more sides.

- Provide wall measurement for each section of the bay window (shown as A, B, and C in diagram below).
- Provide the degree of angle for each bend (shown as Angle #1 and Angle #2 in diagram below).

Factory will make allowances based upon wall measurements, degree of angles, and projection of bracket specified on order.

Please Note On Your Order:

- If wall measurement is the pole/rod measurement, or
 - If wall measurement includes the finials
- Factory will make proper allowances.

MEASURING FOR CORNER WINDOWS:

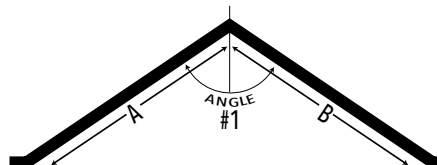

Corner windows have 2 sides.

- Provide wall measurement for each side of the corner window (shown as A and B in diagram below).
- Provide the degree of angle at corner (shown as Angle #1 in diagram below).

Factory will make allowances based upon wall measurements, degree of angles, and projection of bracket specified on order.

Please Note On Your Order:

- If wall measurement is the pole/rod measurement, or
 - If wall measurement includes the finials
- Factory will make proper allowances.

Ordering Information

- All Pole Sets and Traverse Rods are made to exact measurements.
- Order exact Pole / Rod width. It is not recommended to cut poles down due to the design of the finial connector.
- Finials and brackets are included with all sets.
- Rings purchased separately.
- Standard manufacturing sizes - Incur no additional charges.
Sets up to 94" 1 piece
Sets 94" - 188" 2 pieces (includes center splice)
Sets 188" - 282" 3 pieces (includes 2 splices)
- Specifying sizes other than standard will incur additional charges.
- When ordering sets for bay and corner windows, wall measurements and degree of angles must be specified.

Shipping Information

- Orders are shipped within 10 - 15 business days.
- 5 Day Rush orders are available. Must have prior factory approval and a 25% surcharge will be applied.
- The Rush option is not available for orders including the Outdoor Ready Finish option or for non-standard sizes.
- Orders are shipped directly to your location. All orders are FOB factory.
- Standard orders will ship by FedEx.
- Sets over 108" will incur additional shipping charges. These orders will ship by truck line.

Return Policy:

- All sets are custom made, therefore changes are not possible after order confirmation.
- No exchanges or refunds for Custom Iron Poles or Traverse Rods.
- Rings, brackets, and tiebacks may be returned within 30 days with authorization. A 25% restocking fee will be applied.

Finishes shown in the catalog are close representations of the available finishes. Actual finish samples are included in the United Supply Company Metal Drapery Hardware Collection Binder - USC-METB
